## MATERIALS AND LABOUR GUARANTEE

**WEB & CORE TECHNOLOGIES INC.** guarantees AIR SHAFTS manufactured by its Group to be free from material and labour defects for a period of **1 YEAR** from time of **shipment**.

Any defective **WEBANCOR** product should be shipped prepaid back to us for inspection.

**WEBANCOR** air shafts are covered under this guarantee for all defects except the following.

### 1) Rubber bladder,

Deterioration caused by:

- oil in the loading air.
- chemicals spilled or wiped on the shaft that attack rubber.
- use of shaft when air pressure was low.

### 2) Journals:

- welding. (Journals are heat treated, and welding can cause failures)
- customer modification of any kind. (Could go beyond design limits.)

### 3) Body of shaft, including lugs, buttons or leaves.

- using shaft when air pressure was too low.
- using shaft with misaligned bearings.
- bending caused by overloading.
- customer modification in any way

### 4) Valves-

usually not covered since most problems occur because

- dirt is blown into the seat,
- improper thread sealing compound used,
- improper tools used to inflate or deflate shaft.

Valves are checked during 24 HR air leak test, prior to shipping.

Warranty time is from the date shipped from our factory and based on an 8 hour 5 day week schedule.

When production times are on a 24 hour basis please contact or advise the factory, as products are available for this type of application.

If modifications are required please contact us, and have the shaft serial number available. We can either supply the suggested method of modification, or do the modifications for you at our Mississauga address.
