THE WEBANCOR ADVANTAGE AIR EXPANDING CORE SHAFTS

THE **WEBANCOR** AIR EXPANDING CORE SHAFT HAS BEEN DESIGNED TO DO AWAY WITH MANY OF THE PROBLEMS ASSOCIATED WITH AIR SHAFTS OF OTHER MANUFACTURERS, SUCH AS HARD TO GET PARTS, SHORT LIFE SPAN, DIFFICULT TO TAKE APART TO DO REPAIRS. **25 YEARS OF EXPERIENCE IN MFG.**

- 1)-SHAFTS HAVE A FLANGE ON THE JOURNAL SO THAT THE JOURNAL CANNOT BE FORCED INTO THE TUBE IF DROPPED ON ITS END, (I.E. TO REMOVE STUCK SHAFTS FROM ROLL.)
- 2)-JOURNALS ARE OF HEAT TREATED HIGH STRENGTH STEEL NOT MILD STEEL.
- 3)-CAD/CAM DESIGNED FOR THE WORK ENVIRONMENT. I.E. ROLL WT. AND SPEED
- 4)-FLOATING LUGS DO NOT REQUIRE RETRACTING SPRINGS THAT CAN BREAK AND PUNCTURE THE BLADDER. THEY EASILY PUSH UP INSIDE THE BODY WHEN INSERTED INTO THE CORE, PREVENTING JAMMING.
- 5)-LUGS NEED NOT BE CLIPPED OR PINNED IN THE EXTENDED POSITION TO CHANGE THE BLADDER, A RUBBER SLEEVE OVER THE BLADDER PREVENTS THE LUGS FROM FALLING INTO THE TUBE, ALLOWING FOR FASTER REPAIRS. ONLY THE VALVE END JOURNAL NEEDS TO BE REMOVED NOT BOTH ENDS LIKE SOME "QUICK REPAIR" SHAFTS.
- 6)-VALVES AND INFLATORS THAT MEET OSHA REQUIREMENTS FOR SAFETY ARE STANDARD, AND MANUFACTURED IN-HOUSE ON OUR MODERN CNC MACHINES.
- 7)-**WEBANCOR** SHAFTS ARE DESIGNED AND QUALITY BUILT IN CANADA. SHIPPED AROUND THE WORLD FOR END USERS AND MACHINERY BUILDERS.
- 8)-**WEBANCOR** SHAFTS ARE THE EASIEST TO REPAIR IN THE FIELD. A LOCAL REPAIR SERVICE IS ALSO AVAILABLE, FOR **WEBANCOR** AND MOST OTHER MAKES OF AIR SHAFTS.
- 9)-**STEEL** BODIES FOR STRENGTH AND LONG LIFE. **ALUMINUM** BODIES FOR LIGHT WEIGHT. CARBON FIBER BODIES FOR BOTH STRENGTH AND LIGHT WEIGHT, (**SUITABLE FOR CERTAIN ENVIRONMENTS.**) -- INCH OR METRIC CORE SIZES, OR ANY OTHER SPECIAL SIZE CAN BE MADE TO ORDER.
- 10)-1 YEAR LIMITED WARRANTY ON ALL NEW **WEBANCOR** SHAFTS **BASED ON SINGLE SHIFT.**
- 11)-AIR BLADDERS AND SOME OTHER PARTS FOR TIDLAND, NIMCOR, DAVEN, DOUBLE E, AVAILABLE FROM **WEBANCOR**, AND MADE TO **WEBANCOR** SPECIFICATIONS, FOR SAFETY AND DURABILITY. AIR BLADDERS MANUFACTURED IN-HOUSE FROM SPECIAL COMPOUNDS.
- 12)-**EMERGENCY SERVICE FOR WEBANCOR PARTS, FOR IMMEDIATE SHIPMENT AROUND THE WORLD**

CORE SHAFTS AND CORE CHUCKS. SAFETY CHUCKS. BOWED ROLLS
